## GERMANY'S PLIGHT

By CARL W. ACKERMAN

(Copyright, 1917, The Tribune Association. Registered in accordance with the copyright act, Canada, 1917. The Tribune Association.)

The following interesting article was written by a newspaper man who lived in Germany throughout the war, and left about the first of March:

Wary of the war, depressed and suffering, the German people are today still fighting the Kaiser's battles because the Kaiser and his generals are the greatest jugglers of human nature in Europe.

When Americans ask, "How long can Germany hold out?" I reply, "As long as the German government can satisfy the vanity and stimulate the nerves of the people, and as long as the people permit the government to do the nation's thinking."

How long a time that will be no one can say. It was formerly believed that whenever a nation reached the limit which Germany has reached it would crumple up. But Germany fails to crumple. Instead of breaking up, she fights harder and more desperately. Why can she do this? The answer is simple: Because the German people believe in their government and the government knows that as long as it can convince the people that it is winning the war the people will fight.

Germany is today in the position of a man on the verge of a nervous breakdown; in the position of a man who is under-nourished, who is depressed, who is weighed down by colossal burdens, who is brooding over the loss of friends and relatives, but of a man who feels that his future health and happiness depend upon his ability to hold out until the crisis passes.

If a physician were called in to prescribe for such a patient his first act would in all probability be to stimulate this man's hope, to make him believe that if he would only "hold out" he would pass the crisis successfully. But no physician could say that his patient could stand it for one week, a month or a year more. The doctor would have to gamble upon that man's nerves. He would have to stimulate him daily, perhaps hourly.

On Verge of Breakdown.

So it is with the German nation. The country is on the verge of a nervous breakdown. Men and women, business men and generals, long ago lost their patience. They are under-nourished. They are depressed, distressed, suffering and anxious for peace. It is as true of the Hamburg-American Line directors as it is true of the officers at the front.

There have been more cases of nervous breakdown among the people during the last year than at any time in Germany's history. There have been so many suicides that the newspapers are forbidden to publish them. There have been so many losses on the battlefields that every family has been affected not once, but two, three and four times. Dance halls have been closed. Cafes and hotels must stop serving meals by 11 o'clock. Theaters are presenting the most sullen plays. Rumors spread like prairie fires. One day Hindenburg is dead. Two days later he is alive again.

But the Kaiser has studied this war psychology. He and his ministers know that one thing keeps the German people fighting—their hope of ultimate victory; their belief that they have won already. The Kaiser knows, too, that if the public mind is stimulated from day to day by new victories, by reports of many prisoners, of new territory gained, of enemy ships torpedoed, or by promises of reforms after the war, the public will continue fighting.

So the Kaiser gambles from day to day with his people's nerves. For two years he has done this, and for two years he has been supported by a 12,000,000-man-power army and a larger army of workers and women at home. The Kaiser believes he can gamble for a long time yet with his people.

Just as it is impossible for a physician to say how long his patient can be stimulated without breaking down, so it is impossible for an observer in Germany to say how long it will be before the break-up comes in Germany.

But what about the future? Is there a bottomless well of stimulation in Germany?

Before these questions can be answered others must be asked: Why don't the German people think for themselves? Will they ever think for themselves?

Nation Beginning to Think.

An incident which occurred in Berlin last December illustrates the fact that the people are beginning to think. After the Allies replied to President Wilson's peace-note the Kaiser issued an appeal to the German people. One morning it was printed on the first pages of all newspapers in boldface type. When I arrived at my office the janitor handed me the morning papers and pointing to the Kaiser's letter, said: "I see the Kaiser has written US another letter. You know he never wrote US in peace time."

There are evidences, too, that others are beginning to think. The Russian revolution is going to cause many Socialists to discuss the future of Germany. They have discussed it before, but always behind closed doors and with lowered voices. I attended one night a secret meeting of three Socialists leaders of the Reichstag, an editor of a Berlin paper and several business men. What they said of the Kaiser that night would, if it were published, send every man to the military firing squad. But these men didn't dare speak that way in public at that time. Perhaps

the Russian revolt will give them more courage.

But the Government is not asleep to these changes. The Kaiser believes he can continue juggling public opinion, but he knows that from now on it will be more difficult. But he will not stop. He will always hold forth the vision of victory as the reward for German faithfulness.

U-Boat Successes Dwell On.

But the German people do not read what we do. Their newspapers are printing daily the ship losses of the Entente. Submarines are returning and making reports. These reports are published and in a way to give the people the impression that the submarine war is a success. We get the opposite impression here, but we are not in a position better to judge than the Germans, because we don't hear everything.

The people have childlike confidence and faith in von Hindenburg. If Paul von Hindenburg says a retreat is a victory the people will take his judgment. But all German leaders know that the time is coming when they will have to show the German people a victory or take the consequences themselves.

New Peace Offer Probable.

Hence it would not be surprising if, after present military operations are concluded, either by an offensive against Russia or by an attack on the Western line, the Chancellor again made peace proposals. The Socialists will force the Chancellor to do it sooner or later. They are the real power behind the throne, although they have not enough spunk to try to do their own thinking.

Germany is stronger militarily now than she ever was; and Germany will be able, for many months to keep many Entente armies occupied. Before the year is passed the Entente may need American troops as badly as France needed English assistance last year.

America's entrance, however, may have the decisive effect. American intervention can put a stop to the Kaiser's juggling with his people's minds by helping the Allies defeat Germany. Only a big military defeat will shake the confidence of the Germans in the Kaiser, Hindenburg and their organized might. The people are beginning to think now, but they will do a great deal more thinking if they are beaten.

## First Services in New Church

The basement of the new M.E. Church South was put into use for the first time last Sunday—Easter—for both Sunday school and church services. Flowers and ferns in profusion adorned the building and it presented a very comfortable and attractive appearance. At Sunday school there were 222 present. The ten class rooms on this floor and the large assembly room took care of the school nicely. There was great enthusiasm throughout. Near the close of the service there were a number of expressions of gratification and thanksgiving. W. J. Vaughan, State Field worker was present and made a brief talk.

At the church service the congregation filled the building to its limit. The main room was seated with the solid walnut seats from the old church and it was a surprise to all to find that this assembly room was large enough to contain every seat used in the auditorium of the old building.

Rev. W. H. Focke, pastor, preached a good sermon befitting the occasion. The music was conducted by Prof. F. C. Hunter and was highly complimented by the audience.

A LOCAL GERMAN CITIZEN.

The papers contain many accounts of violent German sympathizers and spies being arrested since the declaration of war and it is refreshing to hear something of loyal citizens of German blood. In a city not far from here an American-born German was saying some harsh things about the United States, when a naturalized citizen born in Germany stepped up and said in substance: "You don't know what you are talking about. You never felt the oppression of the Kaiser's heel and you ought to be ashamed to defend him against this great free country. I was born and reared in Germany and left there to get out of bondage. It is only such fellows as you, who have never experienced anything but the blessings of this free country that do not appreciate it."

The G.-A. made an insolent reply and the German knocked him down, so we are told, and then pinned a small flag on the lapel of his coat and said, "If you don't wear that I will kill you."

SOUTH CAROLINA FALLS IN LINE.

Kentucky started a bigger thing than she knew when she started the campaign against illiteracy. The South Carolina Legislature has just created an illiteracy commission to stamp out illiteracy from that State. First, tried moonlight schools out in a few counties and found they could wipe out illiteracy. Now, they are going at it in earnest.

PATRIOTIC PARADE.

A big patriotic meeting and parade took place at Catlettsburg and Ashland Tuesday evening. Great enthusiasm was aroused.

## Lys Carred in Aviation Corps

Lexington, April 11.—Saunders Smith, a junior in the law department, and U. Garred, a junior in the college of mechanical engineering, University of Kentucky, are the first of the students to take advantage of the opportunity offered by the trustees for classmen to enter the army and navy now and be given credits as of June 1. Mr. Smith will enter the navy as a yeoman and Mr. Garred will go into the aviation corps. The former left for his home in New York today. Mr. Garred is from Louisa, and is a son of Lee A. Garred.

## FRANKFORT'S FAMOUS OLD HOTEL DESTROYED BY FIRE.

The Capitol Hotel at Frankfort was entirely destroyed by fire on Thursday evening of last week. P. C. Dudley, of Fairmont, W. Va., died of suffocation. Lieutenant Governor Black, wife and daughter, and Capt. Dandridge were rescued through windows on the second floor. There were other narrow escapes. The fire originated in the basement.

Frank Dudley was formerly in the newspaper business at Pikeville, Ky. He later became a traveling salesman. He was asleep in his room when the fire occurred.

The hotel was a commodious old structure, a historic place, familiar to more Kentuckians than any other building in the State. It was built in 1853 by the city of Frankfort to aid in preventing the removal of the Capitol from Frankfort. It cost \$105,000 and lost money steadily until 1882, when the Weitzel family bought it for \$20,000. They turned it into a profitable property, and will at once proceed to erect a modern structure on the site.

## ATTEND MISSIONARY MEETING IN NEW ORLEANS

Mrs. G. R. Armstrong, of Logan, W. Va., president of the Woman's Missionary Society of the Western Virginia conference of the M. E. Church South, has gone to New Orleans to attend the Woman's Mission Council. Mrs. S. H. Bowman, of Huntington, and Mrs. G. W. Atkinson, of Paintsville, are also to attend the council at New Orleans.

## JACK FAGG'S SENTIMENTS.

A well known traveling man, Jack Fagg, who formerly lived in Louisa, sent the following telegram to Senator La Follette:

Roderfeld, W. Va., March 4th.  
Senator R. M. La Follette,  
Washington, D. C.

If you will advise us the amount it takes, West Va. citizens will send you a ticket to Germany, where you belong. Also, will include 20 pieces of silver as a bonus for you to leave the country.

JACK FAGG.

Songer, was united in marriage today to Miss Lillian Gross, and a telegram was received here announcing this marriage, which occurred at Columbus, O. Mr. Songer is a splendid young man, holds a good position with the A. C. & L., and his bride is a most charming and bright girl. After a brief wedding tour they will return here and go to housekeeping.

## BISHOP BURTON.

The Right Rev. L. W. Burton, one of the most scholarly and eloquent prelates in the Episcopal church, will preach at the M. E. Church next Tuesday evening, April 16. Service will begin at seven o'clock. The public is cordially invited to attend.

## Charleston Gets Armor Plant

The United States government has announced that the new \$11,000,000 armor plant and the \$1,700,000 projectile factory will be located at Charleston, W. Va. More than 200 sites were considered. The projectile factory will be rushed to completion with all possible haste. The armor plant will be built with but little delay. This is a great victory for Charleston and will cause that already prosperous city to boom.

## THE NEW CHURCH.

The work of plastering the new M. E. Church South has been delayed by the difficulty in getting materials. After additional work in the way of ornamental plaster beams was decided upon the necessary material was slow in arriving, but the work is now going along satisfactorily and will soon be completed.

The doors for the class rooms in the basement have arrived and are being put in place.

## HUNTINGTON WOMAN DROWNED.

Gallipolis, O., April 11.—The body of Mrs. Eliza Billups, of Huntington, W. Va., was found today floating in the Kanawha river with a bag of gold tied to her neck.

## N. & W. IS PATRIOTIC.

The Norfolk and Western railway has announced that it will pay all employees who join the army or navy. Their present wages will be continued, less what the government pays them.

## ENLISTED FOR SERVICE.

Among the soldier boys enlisting at Ashland we notice the names of Henry Rowe, Louisa, and Irvin Childers, Heller, Tip Gayheart and James Patrick, of Wayland.

## MR. GUERIN AND MISS HOAGLAND MARRIED.

Mr. G. M. Guerin and Miss Maude Hoagland were married Thursday morning of this week at the home of Mrs. Ella Hays, where Miss Hoagland has boarded ever since she came to Louisa. The ceremony was performed by Rev. W. H. Focke, of the M. E. Church South. The only other persons present were Mrs. J. M. Weeks, sister of the bride, and Mrs. Dock Jordan, a friend of the couple. The bride and groom left on the 10 o'clock C. and O. train for Chattanooga, Tenn., where they will visit a brother of Mrs. Guerin.

Miss Hoagland is an attractive young lady, of amiable disposition and many graces. She has been a trusted employee of the Singer Sewing Machine company for several years and has had charge of the books in the Louisa office about four years. Her parents live at Chillicothe, Ohio. Mr. Guerin is a clerk in the United States Engineer office at Louisa. He has been here more than three years and stands very high in the estimation of the people. He is a young man of excellent character and habits, and merits a wife of the type that it is now his good fortune to possess.

They will return to Louisa after a brief vacation and will be gladly welcomed. They have the best wishes of everybody.

## FARM LOAN BANK.

The Federal Farm Loan Bank at Louisville is getting ready for business as rapidly as possible, but it will require some time yet to complete arrangements.

## Dr. Prichard's Gift to Grayson

The Grayson Journal says: Again Dr. Lewis Prichard, former resident of Grayson and now of Charleston, W. Va., has shown his warm enduring interest in the welfare of Grayson people.

This time he offers to provide a modern school building worth \$25,000 to \$35,000. This offer is made on the condition that Grayson spends an equal amount for water-works, sanitary sewers and street paving. If it should cost more to provide water-works and sanitary sewers and to pave Main street than it does to provide a suitable school building he proposes to bear half of the additional expense. In other words he offers, on a dollar-for-dollar basis, to help Grayson meet the total expense of the four utilities named above.

His proposition was made Thursday of last week to the Grayson School Board at a special meeting that was called for that purpose. His offer was accepted tentatively and arrangements were made promptly to have architects at Huntington and Ashland prepare and submit plans and estimates of the cost of a modern school building suited to Grayson's needs.

Dr. Prichard came here Wednesday afternoon of last week, accompanied by H. A. Robson of Charleston, who is one of his business associates. They remained until Thursday and while here they were the guests of Dr. and Mrs. W. A. Horton. While here Dr. Prichard met numerous old-time friends. He looked over the town and expressed himself as pleased to note the changes and betterments that have been made since he lived here twenty years ago.

## MRS. GRANVILLE THOMPSON.

Mrs. Elizabeth Thompson died at her home in Irton, O., last Friday after an illness of several weeks. She had been a resident of that city since moving there several years ago from near Ft. Gay, W. Va. She was 63 years of age and had been a consistent member of the Methodist church nearly all her life.

She is survived by her husband and four sons: Carmi A. Thompson, of St. Paul, Howard C. Thompson, of Lewiston, Mont., Chas. W. Thompson, of New York, and Oscar E. Thompson, of Columbus, O. Col. Carmi Thompson and wife were with their mother during her last days.

The funeral was held from the home and burial was in Woodland cemetery, Irton, Sunday afternoon.

## OIL TANKS BURNED.

The Cumberland Pipe Line company has a pumping station at Lewis, on the Ohio & Kentucky railway line in Morels co., at which a tank of 27,500 barrels capacity was recently erected and 35,000 barrels stored in it. Also, there were three 1200 barrel tanks alongside. On Monday night of this week a gauger went there with an open lantern and attempted to read the gauge. The gas arising from the oil caught fire and destroyed almost the entire plant, a loss of more than \$100,000.

## SUCCESSFUL BAZAR.

The Easter bazar Friday and Saturday, by the ladies of the M. E. Church South, gave very satisfactory returns. The profits were \$110.00. Everything placed on sale was disposed of.

## Alleged Effort to Wreck Trains

A report reached here just before the NEWS went to press, telling of an attempt to wreck trains on the Big Sandy line near Paintsville. Four men removed the signal from a switch near the Northeast Coal company's mines and threw the switch so as to wreck any train that came along. The men were seen by local parties and were chased into the hills, it is said. They have not yet been caught. The report says three Germans and a Mexican got off of the train at Paintsville Wednesday evening. They held tickets from Norfolk to Shelby, it is said. The presumption is that these were the men who threw the switch.

## THE UNION SERVICES.

Last week we gave an account of the Wednesday night Union meeting at the Baptist church, the first of three arranged by the two Methodist and the Baptist pastors. The two other services were held on Thursday and Friday nights at the Baptist church. The congregations at the three services were about the same and were as large or larger than the preachers had expected.

The theme that ran through the services was the Resurrection, the greatest of all subjects to the Christian. Rev. W. A. Gaugh, pastor of the Baptist church, preached Thursday evening. His sermon was logically and very helpful. The comments since made by many of those who attended this service are such as to show conclusively that the sermon had left its impress upon them.

On Friday evening Rev. C. A. Bostwick, of the M. E. Church, put the finishing touches upon the series of meetings, and it is well known that he is fitted to do this. His sermon was very much enjoyed by the good-sized congregation.

Mr. R. T. Burns followed with a talk on the Crucifixion and Resurrection. Notwithstanding his four-score years and more, he waxed eloquent and showed much of his old time fire. The discourse was worthy of the close attention given throughout by the audience.

In thought and spirit these meetings were entirely appropriate to the season, leaving the hearers in proper frame of mind for the Easter that followed so soon.

## BOOZE SPECIALS DISCONTINUED.

As a harbinger of the new West Virginia quart-a-month liquor law, the Chesapeake & Ohio railway company, has discontinued the two booze specials which have been running daily to the neighboring oasis, Catlettsburg. The trains ran daily between Ashland, Ky., and Cabin Creek Junction, W. Va., and were heavily patronized by the thirsty. The specials served also to keep a great deal of liquor traffic off the regular passenger trains.

Cancellation of the booze specials is due in part to decision of the railroad officials to operate two sections of Trains No. 3 and No. 4, from Cincinnati to Washington. The additional through trains were due to increased mail and express business.

It is now less than three weeks until the new quart-a-month law is effective in West Virginia, and until that time the thirsty will have to use the regular trains.—Herald-Dispatch.

## WILL RETURN TO EVANSVILLE.

Mr. Junior Lackey, of this city, who has been in the moving picture business as an actor for some time, has for a time at least quit posing before the films. He likes the business, and was succeeding very well, but the war makes it almost impossible to get the material from abroad which is used in the making of the picture films. The NEWS understands that Mr. Lackey has been offered and accepted his former position with the Evansville Motion picture company. He will resume his position as a movie actor when circumstances permit him to do so.

## IN COLORED CIRCLES.

Homer Burgess, 21, and Imogene Wallace, 17, were married last Saturday evening.

Jerry Holly and wife left Wednesday for Chicago to visit their son Will, who has been located there for several years. He is a chauffeur and cornet player.

Willie Williamson, of Louisa, and Georgia Martin, of Catlettsburg, were married in Louisa Saturday evening.

## MRS. W. J. FIELDS

### TAKEN TO HOSPITAL.

Congressman W. J. Fields and Mrs. Fields passed through Ashland Monday afternoon from their home in Olive Hill enroute to Huntington where Mrs. Fields entered a hospital and where she will undergo treatment. It was thought that she would have to undergo an operation, but it is now believed that the same can be avoided.

## SUNDAY SCHOOL CONTEST.

May and June are the months in which the contest will take place between the Sunday school of the M. E. Church South at Louisa and the Mayo Memorial of Paintsville. Considerable interest is already being manifested.

## GERMAN PLOTTERS.

A report from Jenkins says two German electricians recently employed there are charged with a plot to blow up the plant or some part of it. The story says they were discovered placing dynamite and connecting electric wires to explode it.

Mrs. Lucy Caldwell has moved into the house on Lock-av., vacated by the families of C. M. Holbrook and Morton Hammond.

## E. T. WESTLAKE AND MISS LUCILLE NUNNERY MARRIED.

On last Friday Mr. Ernest T. Westlake went to Pikeville and on Saturday was married to Miss Lucille Nunnery, daughter of Mr. S. W. Nunnery, who lives near Pikeville. The ceremony was performed by Rev. Daves, at the home of Mrs. Williamson, in the presence of only a few friends. They came to Louisa Sunday and are at the home of Mrs. Atkins, grandmother of Mr. Westlake.

The affair was not altogether a surprise to the friends of these young people. The bride had spent considerable time in Louisa with her relative, Mrs. G. W. Hale, during the past year or more, and it was not difficult to surmise that an attachment had been formed which would lead to a happy culmination. She is a very pretty and bright young lady, and has gained many warm friends amongst the young people of Louisa.

Mr. Westlake has been a member of the Big Sandy News force for a number of years, and is now our linotype operator. He is a young man of integrity and industry and will prove a desirable companion for the worthy girl whom he has won. Our best wishes are extended to them.

## M. B. COLLINSWORTH SHOT BY CATLETTSBURG POLICEMAN

Catlettsburg, April 11.—An exciting shooting affray occurred at Main street street car stop last night. M. B. Collinsworth, of the North Side, got into an altercation with a conductor in attempting to board a car at Division-st., and was refused entrance. He then went to Main-st. stop near the Shively hotel and boarded the car there, and the altercation was renewed. Policeman Allen Lambert was called and in the tussle which ensued on the street in the endeavor to effect his arrest, Collinsworth is said to have wrested his billy from the officer and struck him over the head, when the officer shot him in the arm and side, inflicting only slight wounds. The wounded man was taken home and is getting along nicely this morning, and was able to go to Ashland. Collinsworth is a timber man employed by the Dawkins Lumber Co., and came here a few years ago from Pike county.

## Flags on Ky. Schoolhouses

Frankfort, Ky., April 4.—State Superintendent V. O. Gilbert is sending out letters to all the county superintendents, urging them to have flags placed on all the rural schools. His letter follows:

"We are at war, not with a people, but a principle. The divine spirit of democracy is approaching the death grapple with the demon spirit of autocracy. The time has come when not only our beloved Columbia is free, but all peoples shall be free. The God-given inspiration of founding a republican Government, based upon the equality of man and the fatherhood of God, received by our forefathers and kept alive by popular education and the sacrifice of blood and treasure, is threatened as never before. Perilous times are upon us, and every Kentuckian should be ready to answer his country's call by sacrifice of blood and treasure. The spirit of freedom and patriotism should fill every soul. Old Glory flung to the breeze, every man, woman and child should step forth to help deliver autocracy its death blow."

"I inclose a resolution passed by the Kentucky Senate, March 30, which speaks for itself. I am not only requesting but expecting that every Board of Education in the proud old Commonwealth, whose heroic sons and daughters have never failed in times of stress and blood to write Kentucky's name high on the scroll of fame, to endorse this resolution by having the Stars and Stripes float from every schoolhouse in the State."

"Attorney General M. M. Logan has ruled that the purchase and raising of the flags may be legally paid for out of the county school fund. It is logical and fitting that we school people should be first in patriotism, not only be precept, but example. Our country needs us. The spirit of freedom for which our fathers died is at stake. Let us as Kentuckians meet the obligation fully, even to the death. Yours truly, V. O. GILBERT."

## PAYS FUNERAL EXPENSES; THEN COMMITTS SUICIDE.

Winchester, Ky., April 4.—Loneliness following the death of an only sister last June, is believed to have caused Robert E. Fox to commit suicide by shooting himself in the head after mailing a check for \$200 to a local undertaker, whom he entrusted with his funeral. He was a bachelor, 62 years old, and an uncle of John Fox, Jr., the writer. He left an estate valued at about \$10,000.

## HAS GOOD POSITION.

Wootsie Cains, youngest son of Mr. and Mrs. Henry Cains, of Potter, has completed a course in telegraphy and is now holding a good position with the Columbia Gas Plant near Kenova, W. Va., as operator. We are glad to note the success of this young man, who is only 19. He is receiving a comfortable salary.

SUREST STOMACH RELIEF  
KNOWN—TRY IT!

Time it! Pape's Diapepsin will sweeten a sour, gassy or out-of-order stomach within five minutes.  
If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is usually a sign of acidity of the stomach.

Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching, no undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches or dizziness. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin helps to neutralize the excessive acid in the stomach which is causing the food fermentation and preventing proper digestion.

Relief in five minutes is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapepsin" to usually keep the entire family free from stomach acidity and its symptoms of indigestion, dyspepsia, sourness, gases, heartburn, and headache, for many months. It belongs in your home.

## LIFT YOUR CORNS OFF WITH FINGERS

Tells how to loosen a tender corn or callous so it lifts off without pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezezone, which the moment a few drops are applied to any corn or callous the soreness is relieved and soon the entire corn or callous, root and all, lifts off with the fingers.  
Freezone dries the moment it is applied, and simply shrivels the corn or callous without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callous. If your druggist hasn't any freezezone he can get it at any wholesale drug house for you.

## GLAD TO TESTIFY

Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly. Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then... it would last... two weeks, and was so weakening, and my health was awful.

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three... I gained, and was well and strong, and I owe it all to Cardui.

I am married now and have 3 children... Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need.

NC-130

Wilmington, Del., April 8.—Alfred I. du Pont tonight announced his intention of turning over to the Government a submarine destroyer of a new type now under construction at Bristol, R. I., and which is pronounced by experts to be one of the most efficient yet conceived. It is to be of all-steel construction, 110 feet long, fifteen feet beam and a draught of only four and one-half feet and will be completed July 1. The light draught of the boat, it is said, will render it immune from torpedoes.

## A CHILD'S TONGUE SHOWS IF LIVER OR BOWELS ARE ACTIVE

IF CROSS, FEVERISH, SICK, BILIOUS, GIVE FRUIT LAXATIVE AT ONCE.

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they live its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without gripping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue. Mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeiters sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

## GIRLS! GIRLS! TRY IT! STOP DANDRUFF AND BEAUTIFY YOUR HAIR

HAIR STOPS FALLING OUT AND GETS THICK, WAVY, STRONG AND BEAUTIFUL.

Your hair becomes light, wavy, fluffy abundant and appears as soft, lustrous and beautiful as a young girl's after a "Dandarine hair cleanse." Just try this—moisten a cloth with a little Dandarine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Dandarine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and bits of it surely get a 25-cent bottle of Knowlton's Dandarine from any druggist or toilet counter, and just try it.

Now let's all give three cheers for spring time and summer will soon be here.

## YOU'RE BILIOUS! LET "CASCARETS" LIVEN LIVER AND BOWELS

DON'T STAY HEADACHY, CONSTIPATED, SICK, WITH BREATH BAD AND STOMACH SOUR.

Get a 10-cent box now.

You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have a bad cold.

Are you keeping your bowels clean with Cascarets or merely forcing a passage every few days with salts, cathartic pills or castor oil?

Cascarets work while you sleep; cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret to-night will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet, liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never gripe or sicken.

## One Experience Convinced Me of its Value

"One of our salesmen demonstrated the value of the Long Distance Telephone to us. He was at Huntsville, Ala., and upon his own responsibility put in

Long Distance calls for fifteen merchants within a radius of several hundred miles.

"In less than one hour he had sold 2100 barrels of flour at a total cost to us of less than six dollars.

"Since then we have applied the Long Distance Bell Telephone to every feature of our business with most profitable results. The service is fine, the rates are reasonable and there is more satisfaction in one Long Distance Telephone talk than in half a dozen letters"

Severe damage to winter wheat has reduced the crop this year to 430,000,000 bushels, according to the estimate made yesterday by the Department of Agriculture.

Frightened by the signs of revolution in Germany the Kaiser has this week announced "reforms" after the war, giving the people a voice in governmental affairs. He knows the throne is slipping from under his bloody feet.

A big munitions plant was blown up Tuesday 15 miles from Philadelphia and the loss of life is nearly 150, mostly women and girls. At first it was thought to be an accident, but now it is said a deep laid plot is responsible for the awful deed.

The British and French armies have broken through some of the strong fortifications of the German line on the western front, built during the winter. The big guns smashed the steel forts. About 15,000 prisoners have been captured this week along the front. Great numbers of airplanes have engaged in battle. More than 100 machines were destroyed and the lives of the operators lost. The allies surprised the Germans by getting their enormous guns within range in such a short time after the German retirement from the old lines. It is said the Germans are concentrating their forces on the eastern front to make a drive on Russia as soon as the spring thaws will permit.

## GOVERNMENT CONTROL OF COAL MINES PREDICTED.

Frankfort, Ky., April 4.—"Within a few months all coal lands in the United States will be under the control of the government, according to K. U. Meguire, of Louisville, representative of the Harlan Coal Co., who was questioned by the House Committee on Revenue and Taxation regarding the placing of a tonnage tax on coal.

Already the government has commandeered all smokeless coal for use in the United States navy, said Mr. Meguire, and other coal lands will be requisitioned, he believes, soon after war becomes a reality. The coal of Eastern Kentucky, is especially adapted to the manufacture of explosives, and probably is not excelled by the coal of any State in that particular, he said.

Mr. Meguire was one of three representatives of coal interests who appeared before the committee, of which William A. Perry, of Louisville, is chairman, Robert E. Wood, of Louisville, and J. V. Norman, of Louisville, the latter representing the Harlan County Coal Operators' Association, were other speakers who spoke against an excessive tax on the output of coal.

All parties who hold any county warrants to get the benefit of the interest on same, according to the above law will have to present same to the County Treasurer within the time stated in said section, or no interest will be paid. This statement is made for your benefit.

W. T. CAIN, County Treas.

## CONSTRUES LAW IN REGARD TO JEWISH SABBATH.

Frankfort, Ky.—The exceptions under the Sunday law permitting people of religious beliefs other than Christians to keep open their places on Sunday, if they observe another day, applies to the Jewish Sabbath from sundown Friday to the same hour on Saturday and not a calendar day, the Court of Appeals held in the case of Samuel Cohen, a merchant of Heller, for a writ of prohibition to stop Police Judge U. G. Webb from prosecuting him under the Sunday law.

The Police Judge insisted Cohen was not excepted because he opened Saturday night. The writ was denied, as it was not the proper remedy, but the Police Judge was admonished.—Louisville Courier-Journal.

## JAMES D. YATES.

Died at his home at Jenkins, Thursday night, March 29.

Mr. Yates was 59 years and 4 months old, and the son of Mr. and Mrs. Richard and Pricy Yates. He was born at Mouth Card, on December 18, 1857, and in the year 1871 moved to Yeager, where he lived until 1906. He then moved to Zelma, Lawrence-co., and last June moved to Jenkins, where he remained until his death. Mr. Yates believed in the fatherhood of God, and the brotherhood of man. He believed that the man who scattered flowers in the pathway of his fellowmen, who lets into the dark places, of life the sunshine of human sympathy and human happiness, is following in the footsteps of his Master. Mr. Yates joined the church many years ago.

He leaves a wife and several children to mourn his loss, besides a multitude of friends. The funeral was held at the residence and the body laid to rest in the family burying ground near the old home at Yeager.—Pikeville News.

## GERMAN OFFICIAL MADE ANOTHER BAD GUESS.

When Henry Morgenthau, former American Ambassador to Turkey, passed through Berlin, en route to the United States, he conferred with Zimmermann, who was then Under Secretary of State. During the course of one of their conversations Zimmermann said the United States would never go to war with Germany, "because the German-Americans would revolt." That was one of Zimmermann's hobbies. Zimmermann told other American officials and foreign correspondents that President Wilson would not be able to bring the United States to the brink of war, because the "German-Americans were too powerful."

When the back begins to ache, Don't wait until backache becomes chronic:

"Till kidney troubles develop;  
"Till bladder troubles destroy night's rest.

Profit by a Louisa citizen's experience.

Miss Lelah Smith, Franklin St., Louisa, says: "I was led to take Doan's Kidney Pills, because others in the family had been benefited by them. I used them for attacks of backache, which came on after a cold settled on my kidneys or after I had over exerted at my housework. Doan's Kidney Pills strengthened my back and took all the pains away. At any sign of a return of backache, I have always bought Doan's Kidney Pills and have never failed to receive prompt benefit."

## Home Craft Week

## The Anderson-Newcomb Co.

On Third Avenue Huntington, W. Va.

ing Office, Little Rock, Arkansas when Mr. J. L. Leigh of 1511 West Second Street applied for enlistment in the U. S. Navy.

Mr. Leigh requested that he be enlisted at once and sent to the largest Battleship afloat for service on that vessel, and he was greatly disappointed when informed by the Recruiting Officer that he exceeded the required age limit by forty some odd years, he being sixty-nine years of age.

Mr. Leigh is a warrior of experience, having enlisted in the Confederate Army at the age of thirteen and having served for four years, which ended in April, 1865, under General Lee, at Appomattox.

It is most gratifying, in these times of need to find such loyal spirit in the "Boys of 1861" and such an example as

shown by our worthy veteran, Mr. Leigh, will no doubt find a like response by the "Boys of 1917."

## WAR NOTES

this because he is afraid of a revolution.

—○—  
Congress will be asked to pass a law drafting all unmarried men between 19 and 25 years, and from these there will be selected by lot a million for an army. Later on, if more should be needed, another drawing will take place. It is expected to require a year's time to drill these men. Those having mothers and sisters dependent upon them will be exempted.

—○—  
It is thought the United States will not be able to place an army in Europe in less than a year's time and perhaps not then. Money and the navy will be the means of help extended at once. Unless Mexico comes in against us our army will not see fighting for quite a long time, it is thought.

—○—  
Roosevelt wants to raise a division of troops to go to the trenches of France, but this is an irregular proposition which Congress must provide for if it be done.

## REDUCTION SALE

Several months ago, when it was evident that all merchandise would increase in price, we placed large orders at the old prices and these goods have been delivered to us, until our store is packed and jammed. Prices increased more than expected, but we are absolutely compelled to reduce our stock and we are in fine position to drop far below the market and save you much money. Our regular prices are very low, but we are cutting these heavily. For instance:

**Clothing, bargain at \$20.00, reduced to \$16**

**Clothing, bargain at \$15.00, reduced to \$12**

These are not just a few suits to bring you in, but we have the largest stock ever shown here.

#### Shoes:

Enormous line of shoes all at cut prices. The best Croeset Shoes included.

#### Furnishings:

This sale includes our entire line of Men's and Boys Furnishing Goods.

We will engage in the merchandising business at another place within a few months, which is another reason for forcing down our stock here.

## THE UNIVERSAL CAR

Have been built and actually delivered to retail buyers since August 1, 1916. The figures—320,817—represent the actual number of cars manufactured by us since August 1st, 1916, and delivered by our agents to retail buyers. This unusual fall and winter demand for Ford cars makes it necessary for us to continue the distribution of cars only to those agents who have orders for immediate delivery to retail customers, rather than to permit any agent to stock cars in anticipation of late spring sales.

We are issuing this notice to intending buyers that they may protect themselves against delay or disappointment in securing Ford cars. If, therefore, you are planning to purchase a Ford car, we advise you to place your order and take delivery now.

### IMMEDIATE ORDERS WILL HAVE PROMPT ATTENTION.

Delay in buying at this time may cause you to wait several months. Enter your order to-day for immediate delivery with our authorized Ford agent listed below and don't be disappointed later on.

## SUFFERED FROM BACKACHE RHEUMATISM, DROPSY.

Dear Mr. Editor:—I wish to tell you of a recent experience I had when suffering from backache, weak back, rheumatism, dropsy, and congestion of the kidneys. I tried a new medicine called "Anuric," which has recently been discovered by Dr. Pierce, of whose medicines and Surgical Institution in Buffalo, N. Y., you have no doubt heard for years. This medicine acted upon me in a wonderful manner. I never have taken any medicine so helpful in such quick time. I do wish anyone in need of such a remedy would give it a trial.

NOTE: Folks in town and adjoining counties are delighted with the results they have obtained by using "ANURIC," the newest discovery of Dr. Pierce, who is head of the "LYONS' HOTEL and SURGICAL INSTITUTE," in Buffalo, N. Y. Those who started the day with a backache, stiff legs, arms and muscles, and an aching head (worn out before the day began because they were in and out of bed half a dozen times at night) are appreciating the perfect rest, comfort and new strength they obtained from Dr. Pierce's Anuric Tablets. To prove that this is a certain uric acid solvent and conquers headache, kidney and bladder diseases and rheumatism, if you've never used the "Anuric," cut this out and send ten cents to Doctor Pierce for a large sample package. This will prove to you that "Anuric" is thirty-seven times more active than lithia in eliminating uric acid—and the most perfect kidney and bladder corrector. If you are a sufferer, go to your best druggist and ask for a 50-cent box of "Anuric." You run no risk for Dr. Pierce's good name stands behind this wonderful new discovery as it has for the past half century for his "Golden Medical Discovery" which makes the blood pure, his "Favorite Prescription" for weak women and "Pleasant Pellets" for liver ills.

DRINKS 7 TUMBLERS OF WATER TO PASS NAVAL EXAM.

A requisite of three pounds in weight, missing in the case of Dewey McClelland, of Ashland, didn't prove very formidable to the patriotic young man at the Naval Recruiting station in Huntington.

Young McClelland applied for entry in the Navy and was subjected to examination by the local authorities. The Naval requirements are strict, three pounds is not much, but were in a fair way to prove a barrier to McClelland's right to wear the colors.

"Three pounds is three pounds ain't it," he asked the officers.

"To be sure" came the answer.

"Well then lend me a water glass," replied the recruit. And forthwith he proceeded to drink seven tumblersful of water.

"Now weigh me and see if I don't pass," he requested.

When the man stepped on the scales the indicator pointed to the necessary number of pounds, with a little more as good measure.

"Dewey always was a patriotic name," remarked Mr. Miller in a perfunctory manner.

McClelland was accompanied by another Ashland man, William Hammond, who also enlisted. Both left yesterday for Parkersburg, where it is feared McClelland will have to repeat

## AS PRICES RISE HIGH COST OF LIVING HITS THE RAILROADS

Service Will Be Crippled Unless Relief Comes Soon.

EXPENSES UP, RATES DOWN

Wasteful and Conflicting Regulations Hamper Railroad Credit, While Advance in Labor and Materials Outstrips Revenues, Chairman Kruttschnitt Tells Congress Committee. Unified Federal Control Will Improve Conditions.

Washington, April 2.—The condition in which the railroads find themselves as a result of constant increases in wages, prices of material, taxes and other expenses, while their revenues are restricted by legislation, was strikingly described by Julius Kruttschnitt, Chairman of the Executive Committee of the Southern Pacific Company, in his testimony during the past few days before the Joint Congressional Committee on Interstate Commerce, which is making a study of the question of railroad regulation. Mr. Kruttschnitt urged the committee to recommend a plan of regulation which will center responsibility for regulation and its results in the federal government, so that conditions affecting both expenses and revenues may be made subject to a uniform policy instead of the wasteful and often conflicting policies involved in the system of combined state and federal regulation.

Why Roads Need More Money.

Mr. Kruttschnitt's testimony also had a bearing on the reasons for the application of the roads to the Interstate Commerce Commission for a general advance in freight rates. He showed that while the price of transportation has declined in recent years, the cost of producing transportation, like the cost of almost everything else, has rapidly advanced. This he illustrated by showing that if freight and passenger rates had increased during the past twenty years in the same proportion as average commodity prices the railroads of the United States would have received \$1,654,000,000 more for transportation in 1915 than they did receive.

This saving to the public was effected, in spite of an increase of 93 per cent in the cost of operation of trains, by a reduction in the average passenger rate per mile from 2.04 cents in 1895 to 1.98 cents in 1915, a decrease of 3 per cent, and by a reduction in the average freight rate per ton mile from 8.39 mills in 1895 to 7.3 mills in 1915, or 13 per cent. During the same period the cost of operation per train mile rose from .92 cents to \$1.78, almost doubling. At the same time the average price of 346 commodities enumerated in a bulletin of the Department of Agriculture increased 115 per cent. Transportation is practically the only commodity in general use that has not increased tremendously in price during the past twenty years, freight and passenger charges being lower than they were twenty years ago.

Big Saving to Public.

If rates had risen proportionately to the increase in the cost of other articles of ordinary use, Mr. Kruttschnitt told the committee, the average passenger rate in 1915 would have been 2.95 cents a mile, or 50 per cent higher than it was, and the average freight rate would have been 1.21 cents, or 60 per cent higher than it was. The saving to the public in passenger fares through this difference was \$314,000,000 and in freight rates \$1,340,000,000.

Unlabeled railroad bankruptcy under this reduction in rates and increased

## Corns Peel Right Off With "Gets-It"

2 Drops, and the Corn is a "Goner!"

When you've got to walk on the sides of your shoe to get away from those awful corn-pains, there's only one common-sense thing to do.

Use "Gets-It" Your Corns Won't Swell in Water. Besides, They'll Shrink, Loosen and Peel Off!

Put 2 or 3 drops of "Gets-It" on the corn right away. Pain and inflammation will disappear, the corn will begin to shrink from that instant—then it loosens and falls right off.

There's no other corn-remover in the world that acts like "Gets-It." No new discovery has been made in corn-removers since "Gets-It" was born. Don't forget that fact. "Gets-It" does away forever with the use of salves that irritate, bandages that make a bundle of your toe, plasters that half do the work, knives and scissors that draw blood. Use "Gets-It"—no more digging or cutting. "Gets-It" is sold everywhere, in a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

cost of operation, he said, was avoided only by heavy expenditures to obtain increased efficiency in train movement, making it possible to haul more tons of freight per locomotive. This had reduced the average cost of hauling a ton of freight, but the decline in the average freight rate had reduced the net revenue of the roads from each ton hauled. If the operating costs of the railroads, including the prices of coal, labor and material, continue to advance at the present rate a lot of railroads will be in the hands of receivers by 1918 unless some relief is afforded. Mr. Kruttschnitt told the committee.

"Owing to the rise of commodity prices," he said, "the purchasing power of the dollar has fallen 55 per cent and the railroads are in the position of being compelled by law to accept payment for their service to the public in currency worth 45 cents on the dollar.

Public's Chief Interest.

"The public's greatest interest is in adequate transportation facilities and not so much in low rates. As to most commodities freight rates form a very small proportion of their cost. Excluding low grade commodities, the percentage of the freight rate to the cost is so slight as to offer no justification for any substantial increase in prices to the consumer. It may be stated with little fear of contradiction that the consumer seldom, if ever, profits from a lowering of freight rates.

"Extortionate charges are a thing of the past, and under the attempt to cut rates to their lowest possible figure the interest of the whole public in the character and standard of transportation is subordinated to the interest of that part of the public only that profits by lower rates—that is to say, the shippers and their agents and not the general public, the ultimate consumer."
